

DELEGATE INFORMATION PACKAGE

Welcome to **Advantage through Excellence**. Excellence in Manufacturing Consortium is pleased to provide this Delegate Information Package for your use. Links are provided as a convenience when this document is viewed in PDF format; if you would prefer a hard copy, you may download the document at www.FutureofMFG.ca and print it at your own discretion.

Show Overview

EMC's Advantage through Excellence – Future of Manufacturing conference helps explore the competitive advantages, opportunities and success that can be achieved by manufacturers, through peer-to-peer networking and sharing of global best practices. This event provides a tremendous venue for you to learn, share and exchange ideas, best practices, challenges and solutions, with manufacturing peers from all sectors of Canadian industry.

Advantage through Excellence's five streams puts you in control to navigate your own learning and training. Apart from the common keynotes, workshops and plant tours, delegates choose sessions from across multiple streams. This means you can tailor your time while at the conference and return to your facility armed with a broad range of new knowledge.

Through this industry-government partnership, we have developed an engaging program.

About the Venue

The venue for Advantage through Excellence Conference is the Universal Eventspace, by PeterandPauls.com, in Vaughan Ontario.

A premier hospitality event venue that boasts state-of-the-art technology and a LEED Certified Facility.
